USING THE ACCESSORY PARTS MANUAL

⚠ WARNING

- **This manual is to be used only for identification and ordering of service parts. Be sure to read and use the maintenance and service manual before attempting any vehicle repairs.**

Use this manual to identify and order accessories for all Club Car vehicles. The Accessory Parts Manual is current at the time of its printing. However, updated sections can be downloaded from Partner Pavilion under Support > Publications > Technical Publications. Simply check the Revision Log to see which sections have been revised, and download the files you need.

This manual includes two reference tools: a Table of Contents and an Index. The Table of Contents lists section numbers, and under them, individual page titles and page numbers included in that section (Fig. 1).

The index (Fig. 2) lists speci c parts and assemblies. Items are listed by both part number (numerical listings) and name (alphabetical listings) with the page numbers in italic text. Items are listed by part number in the numerical section and by name in the alphabetical section.

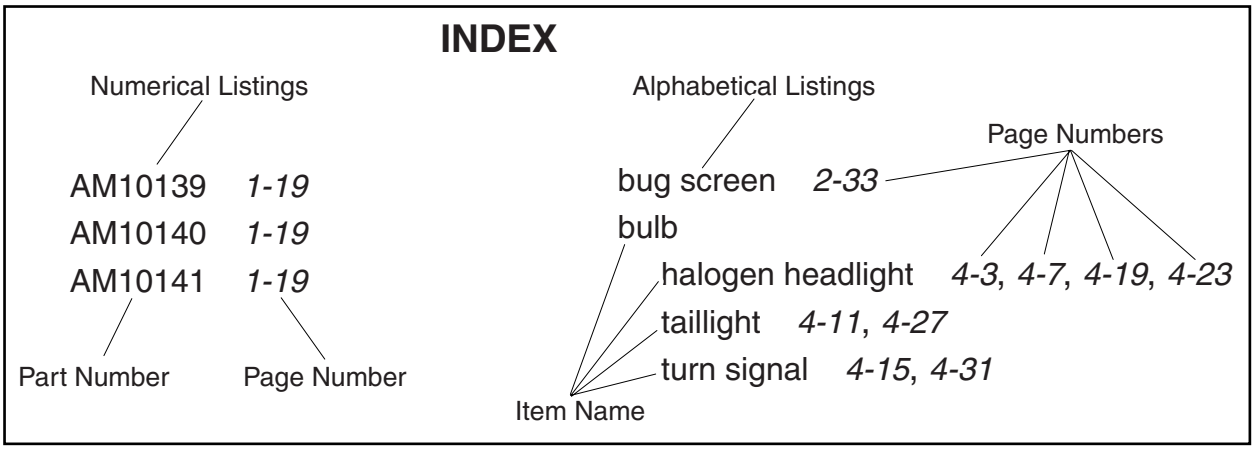

Fig. 2

There is a two-page spread for each page title listed in the Table of Contents. The left-hand page (Fig. 3) contains either an illustration or a photograph showing kits and parts in their relative positions. Each part is labeled with a number balloon.

The right-hand page is the parts list page. The item numbers listed on the parts list page correspond to the balloon numbers in the illustration. The parts list page also shows part numbers, part descriptions, quantity used, and applicable vehicles.

Use the Vehicle List on the right as a quick reference. This list indicates on which vehicles one or more of the parts listed can be installed. Some spreads list multiple kits. Check the item description to see on which vehicles a kit can be installed. If no vehicles are specified, the kits can be installed on all vehicles listed.

Some item descriptions are indented. This indention corresponds to a parts assembly level. A part that is indented to *level 2* is either a component of the *level 1* part (assembly) that it is listed under, or it is a variation of the item listed at *level 1*. A *level 3* part is a component of the *level 2* part that it is listed under, and a *level 4* part is a component of the *level 3* part (Fig. 4).

Many items in this manual specify parts that are designed for ICS vehicles. The abbreviation “ICS” refers to vehicles equipped with the Integrated Comfort System. Only vehicles manufactured during or after model year 2000 are equipped with the Integrated Comfort System.

For clarity, all Carryall vehicles are referenced with arabic numerals rather than Roman numerals. For example, you will see Carryall 6, not Carryall VI, regardless of the vehicle’s model year.

HOW TO ORDER PARTS

Replacement parts and accessories can be obtained from our network of authorized dealers and distributors. You can obtain the name and phone number of your closest Club Car contact by visiting our website at www.clubcar.com and clicking the “*Find a Dealer*” link or by calling our toll-free Service Parts and Technical Assistance hotline at (800) 872-2246 or (706) 863-3000, extension 3281 or 3854.

NOTE: *This accessory parts manual represents the most current information at the time of publication. Club Car, Inc. is continually working to further improve its vehicles and other products. These improvements may affect the parts used to service the vehicle. Any modi cation and/or signi cant change in speci cations will be forwarded to all Club Car and Carryall distributors/dealers and will, when applicable, appear in future editions of this illustrated parts list. Club Car, Inc. reserves the right to change speci cations and designs at any time without notice and without the obligation of making changes to units previously sold.*
